

VISHAL R

Cyber-Risk Practitioner & Full Stack Developer

Chennai, Tamil Nadu | mailvishal7775@gmail.com | +91-6383303019

Portfolio: 0xk1y0vi.github.io | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Dynamic technology professional blending an MBA in Information Technology Business Management with over 3 years of rigorous experience in full-stack engineering, cloud architecture, and cybersecurity. Proven track record of architecting scalable enterprise systems and automating CI/CD pipelines. Seeking to leverage deep technical foundations in VAPT, AI-driven architectures (RAG/KAG), and GRC frameworks to drive strategic digital risk management and secure software development initiatives.

TECHNICAL SKILLS

- **Cybersecurity & GRC:** ISO 27001, NIST CSF 2.0, SOX Compliance, VAPT, Aircrack-ng, Network Security, Cloud Security.
- **Backend & Cloud:** Node.js, Python, Express.js, Nest.js, PHP, AWS, Azure, Docker, Apache2.
- **Databases & AI:** MongoDB, PostgreSQL, MySQL, Vector Databases, RAG/KAG Architectures, n8n (AI Agents).
- **DevOps & Frontend:** GitHub Actions (CI/CD), Linux, React.js, HTML5, CSS3.

PROFESSIONAL EXPERIENCE

Infoapto Technologies

Sep 2023 – May 2025

Senior Software Engineer (Backend)

- Architected scalable web applications using AWS, Node.js, and PostgreSQL; led a voluntary cloud security and AWS cost optimization project, achieving a 60% expense reduction.
- Automated CI/CD workflows using GitHub Actions and Amazon ECR, achieving zero-downtime application delivery.
- Developed a cross-platform desktop application (Electron.js) for secure, automated resume retrieval and cloud storage.
- Digitized HR operations by engineering an integrated HRMS platform for attendance and employee management.

RAMSOL PVT LTD / WITS ACUMEN

Sep 2021 – Aug 2023

Back End Developer

- Developed robust ERP backend modules using Node.js, PHP, and MongoDB; transitioned from intern to permanent role.
- Optimized complex database queries and indexing strategies to improve data retrieval performance.
- Researched and integrated Electron.js for rapid development of secure desktop cross-platform applications.

EDUCATION

Symbiosis Centre for Information Technology (SCIT)

2025 – 2027

MBA – Information Technology Business Management (ITBM) | Specialization: Cybersecurity, Systems.

Vels Institute of Science, Technology and Advanced Studies

2021

B.Sc. Animation | 72.63%

SMT. Sundaravalli Memorial School, Chennai

2018

Class XII, Commerce with Computer Science (CBSE) | 73.80%

SMT. Sundaravalli Memorial School, Chennai

2016

Class X (CBSE) | 62.70%

KEY PROJECTS

- **Enterprise Risk Audit (GRC):** Conducted comprehensive compliance audits, working closely with SOX requirements and mapping internal assessment programs directly to the NIST CSF 2.0 framework (Govern, Identify, Protect, Detect, Respond, Recover).
- **VAPT & Cryptanalysis:** Conducted offensive vulnerability assessments using Aircrack-ng and executed cryptographic attacks for security hardening.
- **AI Chatbots:** Engineered RAG/KAG-powered support agents orchestrated via n8n workflows for contextual retrieval.
- **Automated Event Communication System:** Engineered high-performance event landing pages and built an automated mailing engine using Google Sheets as a database, fetching dynamic HTML templates from GitHub via Google Developers API to streamline communication.

CERTIFICATIONS

- ISO/IEC 27001:2022: Information Security Controls Explained (Udemy)
- IT Asset Management (ITAM): Software Asset Management (Udemy)
- Alteryx Bootcamp: Data Analytics and Workflow Automation (Udemy)
- Cloud Computing Essentials 2026 / The Absolute Beginners Guide to IT 2026
- AWS Cloud Quest: Cloud Practitioner | Participant, ISACA ITS 2025
